# Project Write-Ups

## MVF 2 - COVID Cases presentation

This visual representation will be used to show a more specific representation of COVID cases in selected suburbs.

   There is a daily media release of Coronavirus update for victoria through the official website(see research sources of info).We can clearly seek data of cases by Local Government Area ,which is helpful for our cases presentation.

   As we can see, how  the cases are related to different areas of people's activities.

### User Stories

As a student,

I want to know how many cases are updated around my university or my apartment.

So I know I have to go out to study and shop more carefully and attentively. Or I try not to go out today.

As a worker,

I want to know if there are more cases that are related to my type of work.

So I know I should pay more attention to these staff , always wash hands and keep social distance more active.

As an elderly citizen,

I want to know what the area of most death cases is,

So I know if I need to change another place or be taken care of by my family temporarily.

As a business-owner,

I want to know the case situation in the area where my business is located,

So I know if I need to change opening hours and teach my stuff pay more attention and stay safe.

As a media reporter,

I want to know the latest update of cases for Victoria,

So I can deliver news for my audience and channel.

This will also show a visual representation of what suburbs would look like if the amount of active cases were reduced by "25%, 50% and 75%".

NOTE: Percentages can be changed.

**<u>Project Risks</u>**
Not enough personalized data
Quick and Accurate update through API or other techniques from official data.

Heading

Description
    Break down feature into smaller steps
    Discuss how this feature contribute towards the website's main purpose
Include user stories unique to your feature(1~3 stories)
    You can use the ones you've written previously, as long as it's relevant to your feature.
Resources and Tools required
    Websites?
    Programming languages/techniques?

# <u>Website Design</u>

The trello card should include:
A descriptive title
A planned start and due date
The estimated time required to complete the task
A precise description of the task that is to be completed with any necessary contextual information.
A description of the artefact(a single element of your product) as constructed by the task you will have performed.
Hyperlinks to the artefacts being described: for example, Github links, AWS, Teams, e
Who is responsible for managing the task to completion?

Week 4    20200810-0816
Descriptive Title
Assignment Part A

**Part A: Due 10:00am on Thursday, August 13**
**Project Description**  - Matthew + Ramon
**Team -** Published on Google Document
**Minimum Viable Features**

1.  Interactive Map of Victoria - Matthew
2. COVID Cases presentation - Huiyu / Lunke
3. Chatbot - Ramon / Matthew
4. FAQ regarding restrictions - Qiwen / Yuxiang
5. RSS Feed - Ramon

<u>**How to Structure:**</u>

- **Heading**
- **Description**
    - **Break down feature into smaller steps**
    - **Discuss how this feature contribute towards the website's main purpose**

- **Include user stories unique to your feature (1~3 stories)**
        **You can use the ones you've written previously, as long as it's relevant to your feature.**
- **Resources and Tools required**
    - **Websites?**
    - **Programming languages / techniques?**

**Project Motivation -** Ramon // Matthew

**Website Design**

- Homepage      Lunke Zhu
- Section C      Qiwen Dun
- Section D      Yuxiang Bai
- Section E      Huiyu Wang

**Part B: Due 1:00 pm on Saturday, August 15**

**Justified Workload**

**Beyond Current Capabilities**

**Project Risk**

- Everyone come up with 2~3 AFTER all write-ups are done

**Group Contract**

**What to do now?**

- Have a read through this announcement thoroughly
- Post any questions, concerns or queries you may have regarding this timeline
- Give me a thumbs up if you understand everything that needs to be done
- Record ALL the tasks you have been provided with on Trello as a checklist

**Next Meeting:**

Friday morning, we'll discuss our progress and discuss timeline for next few weeks
